Flexible Storage Options Available with Capture Cloud by ADI CMVRs

Store Video On-Premise, in the Cloud, or a Combination of Both While Using Capture Cloud by ADI VSaaS

Local Storage – M10 Service Plan

Eagle Eye VSaaS Camera Subscriptions (per camera channel)

Our local storage service option allows cameras to store video on the CMVRs local hard drive. This will not store any video in the cloud, so there is no cloud retention or resolution costs associated with this subscription, however, the M10 service previews up to one day in the cloud per camera. Customers can still manage systems remotely, view live or recorded video, directly through the VSaaS. Subscriptions are priced per camera and can be billed monthly. Storage capacity will vary based on your CMVR. Reach out to your local ADI sales rep for hardware options that can meet local storage needs.

MONTHLY SUBSCRIPTION PRICE		YEARLY SUBSCRIPTION PRICE	
ENi-M10-1	€ 4.43	ENi-M10-12	€ 47.80

Local Storage with Cloud Preview - PR1 Service Plan

Similar to M10, this service is only available on our CMVRs. The PR1 Service Plan will store previews of video in the cloud for a select retention time and the price will vary based on the length of preview retention. Full video remains stored on the local recorder and all previews are stored in the cloud, offering affordable, longer retention to meet requirements. Also similar to the M10 plan, this local storage and preview can be viewed and fully managed remotely via Capture Cloud by ADI VSaaS.

LPR: License Plate Recognition Subscription Details

Capture Cloud by ADI LPR (License Plate Recognition) is an add-on service available to an existing Capture Cloud by ADI service Account. It offers a cloud-managed solution for accurate detection and recognition of license plates. This is a cost-effective method of turning any existing ONVIF security camera into a highly accurate license plate reader.

There are a few requirements:

- An existing Cloud Subscription must be tied to this camera. LPR cannot be tied into M10 or PR1
- VSP and LPR are supported on select Bridges and CMVR's. Reach out to your local ADI salesperson for more information.

Subscriptions are priced per camera. To enable License Plate Recognition to any ONVIF Profile Camera, VSP and LPR subscriptions must **both** be enabled as a requirement. Pricing is as follows:

SUBSCRIPTION REQUIREMENTS	MONTHLY SUBSCRIPTION PRICE	YEARLY SUBSCRIPTION PRICE	
Vehicle Surveillance Package	ENi-PA001-1	€ 16.12	ENi-PA001-12 € 174.12
License Plate Recognition	ENi-ANA-020-1	€ 20.17	ENi-ANA-020-12 € 217.79
